## LAMBS and GOATS - Most Obvious Pet

You should try to get your lamb/goat when it is a few days old and start looking after it from then on. Whenever possible, allow your child to feed it, as it will only become really friendly to the child if the child is feeding it. To train it to call, stand with a bottle of milk and call your lamb from a distance by name. When it comes, give it a gentle pat and feed it. At all times be careful not to tease or frighten your lamb/goat, as it will only be trusting and affectionate if you are kind to it. Try and make some time each day for your child to play with your lamb/goat, so they both get to know each other well. By Livestock Day the lamb/goat should be so friendly it will follow your child everywhere, coming when called, whether they have a bottle in their hand or not.

Before Livestock Day you make want to practice these 3 main stages:

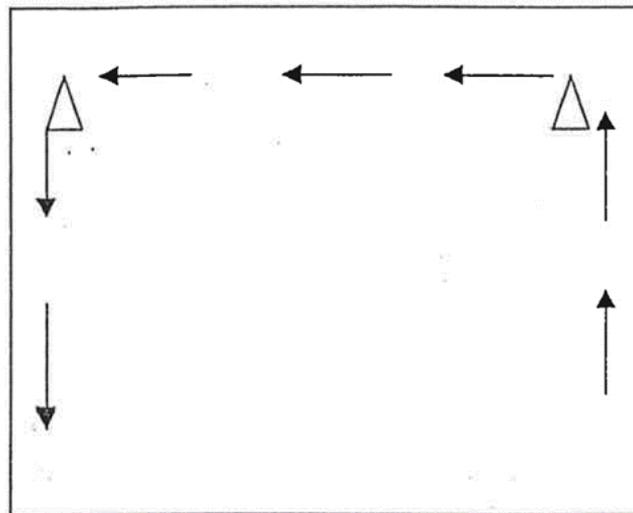

Stage 1: Get someone to hold your lamb/goat, stand 5m away from it and call it.

Stage 2: Walk along with your lamb/goat following behind. Be careful not to walk too fast for it.

Stage 3: Run along with your lamb/goat running behind. After running 5m stop and catch your lamb/goat. Practice catching it quietly. Remember the judge will be watching as it helps him to know whether your lamb/goat is friendly or just hungry.

## LAMBS—Leading

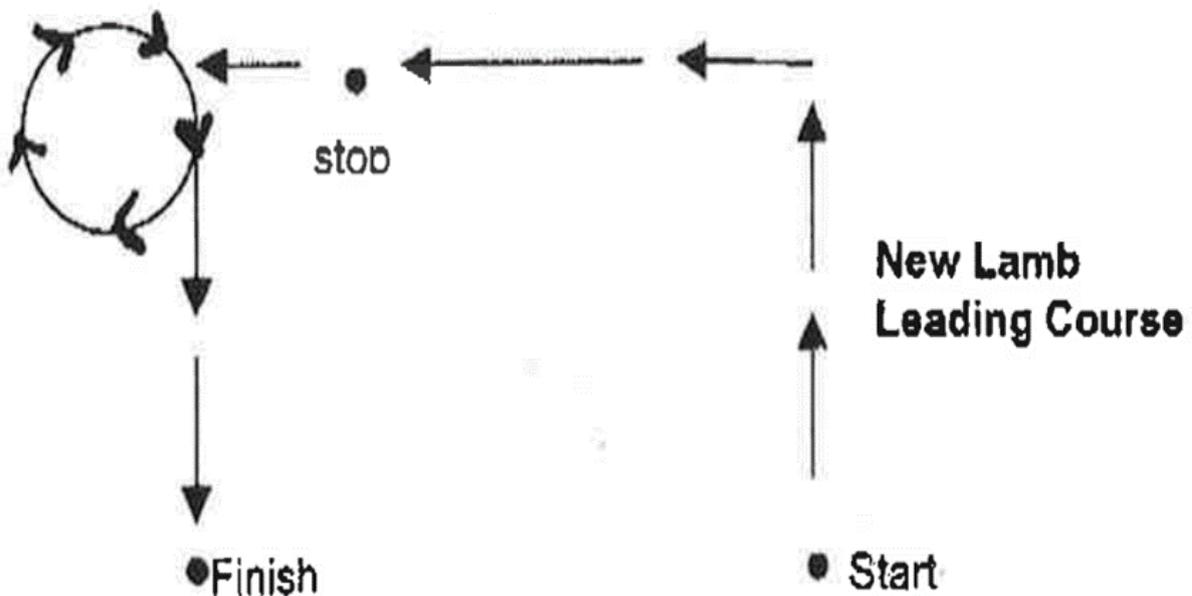

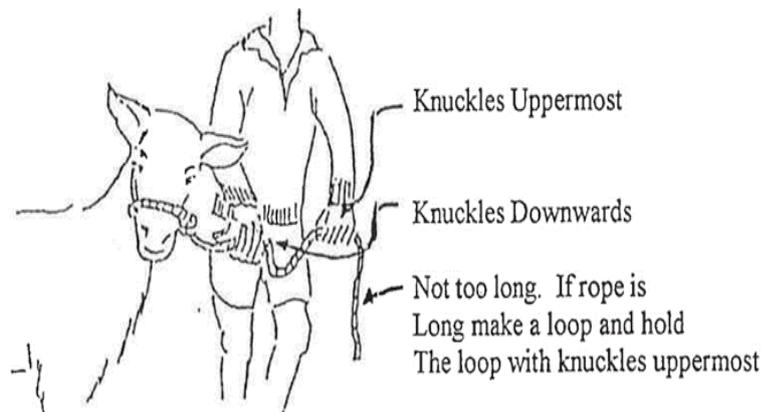

The child should become familiar with what is expected in the ring. This event is to assess the coordination and cooperation of the child and lamb. The lamb is led anti-clockwise around a square. The child leads the lamb around the outside of the pegs, stopping halfway to count to three. The child should lead with the lamb in the child's right.

General Guidelines:

- Walk at the speed your lamb usually walks.
- Keep to a straight line
- The lambs front legs should be in line with the child's legs.
- The lead should not be too tight or too loose. You should be able to steer the lamb by moving the hand to one side or another.
- The right hand should grip the rope, palm upwards.
- The left hand should grip the rope, knuckles upwards, leaving a loop of slack rope between the lands.
- There should remain 30 to 45cm of tail end rope hanging free from the left hand. No loops or trailing ends.
- All control should be exercised by the right hand on the lead.
- Always stand upright and be proud of yourself and the lamb.

The following actions will be penalised:

- Releasing the right hand grip on the rope at any time.
- Touching the lamb with the hand during the competition
- Hitting the lamb with anything
- Jerking the collar
- Stopping except required by the judge

1. Walk with the kid on lead
2. Jumping rails - three with the maximum height of 30cm, (could be any material).
3. Stepping Stones - three to five cut tree rounds to allow the kid to jump from one to the other.
